Most people think that the biggest felony made by Bill Clinton might be that he swore falsely under oath in the Lewinsky affair. But this is peanuts compared to the real crimes, yet undetected by most American people.

THE OXFORD DAYS

It was in Oxford as a student Clinton came to hear about the One World Government for the first time, and what was required to be a member of this New World Order. In an interview in 1994 Clinton said that he'd known about the "Shadow-government" already in his youth, and had been very enthusiastic to get an entrance into the "Inner Circle" and from there have the opportunity to participate in decisions regarding the future of the world.

He succeeded! The "President-maker" David Rockefeller met Clinton in the mid 80's in Arkansas to prepare him for what was to come. The State of Arkansas, by the way, is a major seat for the Brotherhood elite. The south branch of the Scottish Rite of Freemasonry has its center here, and from this area Albert Pike (33 degree Freemason) created the Ku Klux Klan.

THE CORRUPTED GOVERNOR OF ARKANSAS

Clinton worked himself up rapidly and became a governor of Arkansas. As a governor Bill Clinton committed a series of high crimes, related to his Illuminati connection. He became the leader of a gigantic network which dealt with drug-smuggling, laundering of drug-money and corruption in general.

A good friend of Clinton from Arkansas, Larry Nichols, was interviewed in a film. Clinton thought that Nichols would keep his mouth shut, but he didn't. He was hired by Clinton and had found out that Clinton's firm, "Arkansas Development Finance Authority" (ADFA), laundered drug-money. Cocaine to a value of $10.000.000 (ten million dollars!) a week was flown in from Mena Airport in Arkansas. The money was laundered via ADFA to a bank in Florida, to a bank in Georgia, to Citycorp in New York, and from there it was transferred out of the country. All this regarding to Larry Nichols.

Clinton's best friend, Dan Lasater, led the operations. Lasater and Bill Clinton's brother, Roger Clinton, later spent time in jail due to drug related crimes.

The Chief of Police in Arkansas at that time, Doc Delaughter, said he had gathered information from many persons in Lasater's surroundings, how he smuggled drugs and abused young girls sexually. During those investigations Doc was harassed by persons from his own police department, paid by Clinton.

Bill Clinton created new laws that helped "Tyson Foods" to be the biggest company in Arkansas. The owner, Don Tyson, received a loan from the Clinton-owned ADFA, but never had to pay back. Doc says he has evidence enough against Tyson to start an investigation regarding illegal drug-trade. Nichols says in the film:
The first loan ADFA approved was to "Park-O-Meter" ... When I investigated the company, I found that the Directive Secretary and cashier was Webb Hubbell ... Guess who wrote the law proposition ... which made ADFA possible. Webb Hubbell. Guess who drove the law proposition which looked into- and admitted (Park-O-Meter's) request. "Rose Law Firm" (owned by Hillary Clinton). Who signed the admittance? Webb Hubbell and Hillary Clinton.

Nichols said that when journalists started investigating the loans to "Park-O-Meter", they discovered that the company did not make parking meters, but removable airplane nose-cones, delivered to the air-field in Mena. The equipment was used to smuggle narcotics into the country, and with this Clinton and his companions participated heavily to the pushing of street-drugs in the USA.

Nichols says further that Clinton most of the time was involved in drug trade and the people he surrounded himself with followed him all the way to the White House.

When Clinton became President he elected Webb Hubbell as the Minister of Justice(!). Hubbell had to go back to Arkansas, though, to plead guilty to having cheated customers of the "Rose Law Firm" on $500.000.

Maybe the largest drug smuggling event in the USA history started in 1982 on Mena Airport by Barry Seale, pilot for the Drug Enforcement Agency (DEA!!!). He had had problems with the authorities in Louisiana, so he moved his dirty business to Arkansas, where he could work un-disturbed. Seale said later in a police investigation that he had used nose-cones to smuggle drugs (Park-O-Meter).

**STRANGE DEATHS CONNECTED TO CLINTON**

So what did Bill Clinton do, when he came to power in the White House? Just like the drug trading president before him, Freemason-Brother George Bush, he started a war against drugs(!).

The interesting part is, though, that when different people have started talking about Clinton's affairs, they have suddenly and mysteriously died. One of them was Barry Seale, the drug smuggler. He was killed in February 1987.

By that time, several murders were committed in Arkansas.

- Two young boys were out walking late one night in the surroundings of Mena Airport. They were found dead on a railroad track. The examining doctor, sent by Clinton, said it was an accident. But their parents didn't agree. Later it was found that the boys had been stabbed and got their heads crushed.

- Six other persons, who had talked to the police regarding the murder of the boys, were killed themselves! Some of them had said to their families they had to leave town urgently, as they knew too much about the murders, but they were all traced and shot to death. All this happened while Clinton was the governor of Arkansas and used Mena Airport for drug smuggling.

To make research on, or accuse Clinton has too often showed to be a lethal business.

- Danny Casoloro, who investigated Clinton's involvement in stock frauds, was found...
dead in West Virginia.

- A lawyer from Washington, Paul Wilcher, who had made an appointment with Casoloro’s former attorney, was found dead in his apartment.

- Prosecutor Charles Black wanted more money from governor Clinton to be able to continue the investigations regarding drug smuggling on Mena Airport. He got no money, but Black’s mother was killed.

- The director for Clinton’s Finance-campaign Committee, Ed Willke, was shot with a hail-gun.

- John Wilson, politician in Washington, threatened to reveal Clinton’s dirty business. He was found swinging from a rope in 1993.

- Kathy Furguson, police in Arkansas and Clinton’s bodyguard, said that Clinton was promiscuous. She was found dead with a gun in her hand. Her husband Danny denies all sex-scandals related to Clinton. He is still alive.

- Jon Parnel Walker, one of the investigators in the Whitewater affair, "fell" from a balcony in Virginia.

- C. Victor Raider II had an argument with Clinton. Raider and his son Montgomery died when their sport plane crashed.

- Mr. Friday, member of Raider’s committee, and a known skilled pilot, died when his plane exploded.

- Dentist Ronald Rogers was about to meet a journalist and give information regarding Clinton when his plane crashed in clear weather.

- Luther Parks had gathered information regarding Clinton’s sex habits. Clinton owed him $81,000 for security during his election campaign. He threatened Clinton to go public if he didn’t get the money back. He was shot September 26th 1993. His son Gary said he had all the evidence at home and proof of Bill and Roger Clinton’s drug abuse. The information was stolen shortly thereafter.

- Vincent Foster was a good friend of Clinton since childhood. His "suicide" occurred during the Whitewater investigation. The "suicide" couldn’t have been such. He still had the gun in his hand when found, which is impossible after the reaction from the bullet. Also, he held the gun in his right hand, though he was left-handed! At the same time employees at "Rose Law Firm" started to destroy documents.

In Arkansas there is a law saying that autopsy is not necessary if the diseased through a court-order can be classified to have committed suicide. This law was written by Bill Clinton. Almost every death around his person has been classified as suicide.

The crimes just don’t stop! During the Whitewater investigations Patsy Thomason, Clinton’s companion, searched through Foster’s office the same night Foster died(!). It was justified
under the means of "national security". Patsy Thomason, by the way, is in the police reports for drug related crimes, and it was she who stopped the drug tests on employees in the White House.

Gary Johnson, a lawyer, wanted to reveal the money laundering and corruption in Clinton's business ADFA. Johnson was a neighbor of Gennifer Flowers, one of the ladies Clinton has denied having a sexual relationship with. Johnson had a camera outside his house, and it caught Clinton on his way into Flower's apartment. He had his own key. Johnson had it on film and could prove that Clinton lied. He was then attacked in his home and badly wounded. The intruders also stole the film.

But why hasn't Clinton been thoroughly investigated and put to trial when so many people knew about the crimes? Larry Nichols might have the answer:

Many people wonder how Bill Clinton could lead a whole state in the size of Arkansas with the ultimate power he expressed. It's not that hard. After 12 years, after having "made friends" with the rich, Clinton was in charge of the constitutional laws, the judges, the lawyers and the banks.

When Clinton moved into the White House, he continued as before. He is just one more of the top controlled Presidents, whose purpose is to make way for the New World Order and the new slave community. When Richard Nixon resigned in the 70's the Brotherhood took over the USA with the help of Henry Kissinger and Nelson Rockefeller. Since then there haven't been any true democratic elections in the USA. The Presidents have all been selected carefully by the Illuminati, with David Rockefeller on top. The "free" elections are just something for to keep people busy and to make them think there is a choice. As a matter of fact, no candidate will make it to Presidency if he hasn't got the support from the Illuminati. Such candidates will be ridiculed, lied about or financially overthrown already early in the campaign.

Another peculiar thing about Clinton has to do with Hot Springs, Arkansas. Hot Springs is a city that has 47 thermal springs which has brought the jet set from all over the world. The mafia with their night clubs made the city a hot bed of vice, gambling and prostitution. During the 1920's the territory was so popular with organized crime, that the criminals considered the area to be "neutral ground" like they did Hollywood. In the early 60's Hot Springs had the largest illegal gambling operations in the entire USA. Clinton's uncle Roy was a politician in Arkansas's legislature connected to all the named mess. And Bill's uncle Raymond Clinton, who had a Buick dealership, was tied to all this corruption. Bill and his brother Roger's cocaine habits are well known by people who were connected with them, but how many knows about Bill's and Hillary's connection with the Illuminati? Hillary is sometimes called the "dragon lady" behind her back - for good reasons. Now it seems like the Illuminati is laying their cards on her to make a real politician out of her. She has been the "poor victim" for Bill's sexual behaviors and got the American people's sympathy and envy, as she seems to be a very strong and loyal woman. In fact she is as much involved as her husband and we can only hope she won't be the first female president of the United States. The only person to feel sympathy for in the Clinton family is their poor daughter, who has to live with this viciousness.

Also, Bill is closely connected with Charles "Chip" Whitmore, who is a Satanist and Programmer for the Illuminati and probably has MPD. Bill and Chip have often met on a weekly basis over the years. They still do; when Bill was in England Chip was there too, when Bill went to Florida so did Chip. Chip was also a drummer for Jerry Lee Lewis, who also is a Satanist and
a programmer. He was also a friend of Jack Ruby. Chip had a programmed girl murder a man, and then the Illuminati Network got him off his murder charges. He has also been in charge of assassinations in his area, and controls the local law enforcement in Arkansas.

So it doesn't matter if Clinton resigns or not, as the next representative of the White House will be just another of the many Illuminati-created Presidents. In the background the current Vice President Al Gore is preparing himself to take over after Brother Bill - Gore being a 33:d degree Freemason of the Scottish Rite and with a doubtful background ...Or will we all be surprised by having Hillary Clinton as a candidate? Time will show ...
